The NRC published a *Federal Register* notice with a 60-day comment period on this information collection on December 1, 2020 (85 FR 77279).

8. *The estimated number of annual respondents:* 10.

10. *Abstract:* This voluntary information collection assists the NRC in determining resource and budget needs as well as aligning the proper allocation and

utilization of resources to support applicant submittals, future construction-related activities, and other anticipated part 50 and/or part 52 of title 10 of the *Code of Federal Regulations* (10 CFR) licensing and design certification rulemaking actions. In addition, information provided to the NRC staff is intended to promote early communications between the NRC and the respective addressees about potential 10 CFR part 50 and/or part 52 licensing actions and related activities, submission dates, and plans for construction and inspection activities. The overarching goal of this information collection is to assist the NRC staff more effectively and efficiently plan, schedule, and implement activities and reviews in a timely manner.
